The grant application is the airport's final notice to the FAA that they will proceed with the project. In addition, State law requires that the City have an Agency Agreement completed to allow the Nebraska Department of Transportation, Aeronautics Division to act as the Airport's agent for these funds. Resolution No. 22-07 will authorize the submittal of the application to the FAA and approve the Agency Agreement with the NDOT, Aeronautics Division.

D. Resolution No. 22-08 – Approval of Nebraska CESF Grant-Funded Purchases

[The City of Alliance is in receipt of an application for an Agriculture Estate Dwelling Site (AEDS) from the landowner Roger Schnell. The AEDS shows a 5-acre tract being split from a 162-acre tract.

The proposed AEDS is located at 2330 Highway 2. The proposed parcel is zoned Ag, Agriculture. It is bordered by Ag zoning to the north, west, south, and

northeast; and bordered by M-2 Heavy Industrial to the southeast. AEDS were created by code in 2019 to eliminate the need of rezoning parcels outside of City Limits to Rural Residential when a small acreage was split off for a farmstead or selling of marginal farm ground for residence.

The City of Alliance Planning Commission met at its regular meeting December 14, 2021 and held a public hearing for the AEDS application. They voted yes on a recommendation to the Alliance City Council for the approval of the AEDS after making the following findings:

1. Preexisting conditions requirements: The proposed AEDS is a pivot irrigation corner with an existing single-family house that is unrelated to the ag production on the adjacent ag lands. -The easement will allow the proposed two lots to share access to the driveways.

2. Minimum AEDS size is 2.5 acres: The proposed AEDS is 5 acres.

3. Minimum remaining parcel size is at least 80 acres: There will be a remainder of 157.22 acres.

4. Minimum depth is 200 feet: The proposed parcel is 390.55 feet at its widest point and 152.52 feet at is narrowest. It averages at 271.535 feet deep.

5. Minimum width is 150 feet: The proposed parcel will be 659.85 feet at its widest and 371.38 feet at its narrowest.
6. Each proposed AEDS shall be shaped and located to allow the accurate platting on the official zoning map of the city. The proposed AEDS is rectangular except for the radius carved into the lot for the irrigation pivot. It is easily drawable in the City GIS.

7. Transportation is via a driveway off Highway 2. The AEDS fronts the highway.]

A motion was made by Councilman Bentley, seconded by Councilman Mischnick to approve the third reading of Ordinance No. 2933. City Clerk Johnson read the ordinance by title which follows in its entirety:

- Next on the agenda for Council was the second reading of Ordinance No. 2934 which will approve an amendment to Section 10-86 of the Alliance Municipal Code in regards to alarm fees. The following information was provided:

> [The City of Alliance Municipal Code currently requires a monitoring fee for alarm systems including third-party relays. This has proven to be counterintuitive with a spike in burglaries and thefts during 2021. It was revealed that many community members did not utilize alarm systems because they were cost prohibitive due to a monthly monitoring fee with the security company and the annual fee paid to the police department. The department desires to police the community in partnership with residents and businesses.
>
> The unintended consequence of the current ordinance has deterred people from utilizing alarm systems in the community. The ordinance when first enacted with good intentions was current with technology at the time; however, technology has since advanced to such an extent that only businesses receiving direct monitoring service from the police department should be paying for such a service as to avoid double billing for the same service. The proposal eliminates the duplication of fees for community members.]

ORDINANCE NO. 2934

CONSISTENT HEREWITH, AND PROVIDING FOR AN EFFECTIVE DATE.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF ALLIANCE, NEBRASKA:

SECTION 1. Section 10-86 of the Alliance Municipal Code is amended to read as follows:

"Sec. 10-86. – Permit fees.

RESOLUTION - CEMETERY WIDE-DECK MOWER PURCHASE

The Parks 2021-22 budget includes $35,000 for the purchase of a commercial wing mower. This mower will replace an existing zero turn radius mower with a 122" deck. The City is specifically purchasing a Hustler because they offer the largest cutting width (104 inches) in a zero turn mower. In addition, the Hustler mowers have proven to be extremely durable, parts will be interchangeable with other machines in our fleet, and repairs can be completed locally which limits down time. For those reasons, quotes for this equipment were requested from Midwest Farm Service, the Hustler dealer for our region. Those price comparisons are shown below.

The three quotes compiled by Midwest Farm Service of Alliance, NE compare the MSR, SourceWell and dealer quote from Midwest Farm Service. The price offered by Midwest Farm Service is lowest at approximately 25% under retail price.

Vendor	Price
Manufacturer's Suggested Retail Price	$31,963.00
SourceWell - Contract Price (031121-HTE)	$23,972.00
Midwest Farm Service, Alliance-Dealer Price Quote	$23,900.00

Staff is recommending purchase of the mower from Midwest Farm Service of Alliance, NE in the amount of $23,900.00. A 2003 John Deere mower (currently used at the cemetery) will be sold at auction and this mower will be used for mowing larger spaces in the parks and at the cemetery.

RECOMMENDATION: APPROVE PURCHASE OF A 2022 HUSTLER SUPER 104 MOWER FROM MIDWEST FARM SERVICE OF ALLIANCE, NE IN THE AMOUNT OF $23,900.00.

RESOLUTION NO. 22-06

WHEREAS, The City of Alliance cemetery budget includes $35,000 for the purchase of a commercial wing mower; and

WHEREAS, Three quotes were received, with the purchase being recommended from Midwest Farm Service of Alliance, NE in the amount of Twenty-Three Thousand Nine Hundred Dollars and no/100ths ($23,900.00).

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and City Council of Alliance, Nebraska, that the Mayor be and hereby is authorized to enter into a contract for the purchase of 2022 Hustler Super 104 Mower in the amount of Twenty-Three Thousand Nine Hundred Dollars and no/100ths ($23,900.00) from Midwest Farm Service of Alliance, NE.

RESOLUTION – TAXIWAY/APRON REHABILITATION PROJECT AGENCY AGREEMENT, GRANT DOCUMENTS AND FEDERAL CERTIFICATIONS.

The Alliance Municipal Airport has included on its Capital Improvement Program through the Federal Aviation Administration (FAA) a project to rehabilitate Taxiways and Apron.

The proposed project will consist of removing the existing asphalt, replacing any concrete sections that are heaving, and installing new surface and pavement markings. The existing surfaces were originally installed in 1943 as part of WWII. The asphalt course was installed in the late 1980's. The surfaces are becoming very susceptible to raveling and rutting from aircraft operations. This rehabilitation is necessary to prevent FOD (foreign object debris) and pavement deformation.

Following are items that need to be approved before the City of Alliance can accept a grant for the project:

1. Agency Agreement with Department of Transportation, Aeronautics Division. State law requires that the City have an Agency Agreement completed to allow the Nebraska Department of Transportation, Aeronautics Division to act as the Airport's agent for these funds.

2. Grant Application. The grant application is the airport's final notice to the FAA that they will proceed with the project. The all-inclusive cost of this project will not be known until the bidding process in completed, however the estimate for this project is $4,950,000 with the FAA participating at the current funding levels of 90% and the City of Alliance providing the 10% match. The formal application must be completed before a grant can be issued.

This is the final step in proceeding with the project. City Council approved Airport Engineer Selection on December 15, 2020 and the consultant agreement for this specific project on September 21, 2021.

RECOMMENDATION - APPROVE RESOLUTION AUTHORIZING THE MAYOR TO SIGN THE AGENCY AGREEMENT WITH THE NEBRASKA DEPARTMENT OF TRANSPORTATION, AERONAUTICS DIVISION AND TO SIGN AND SUBMIT THE APPLICATION FOR FEDERAL ASSISTANCE, FEDERAL CERTIFICATIONS, AND ELECTRONICALLY SIGN THE ACTUAL GRANT DOCUMENTS ONCE RECEIVED.

Alliance Police Department Dashboard

The main entry point of the user into the system is via dashboard. The dashboard will show all the necessary information that a user (police or case officer) needs to quickly analyze it's data for any potential cases.

The dashboard will have different view types. Each type will be based on the type of analysis that needs to be done.

Additional view options will be available such as themes and modes. The user will be able to adjust font size and readable fonts for readability purposes.

The dashboard frontend will be mobile, tablet and web desktop compatible.

The dashboard will have an offline mode with a sync processor.

Middleware Service

Component Design

A middleware service needs to be built for the dashboard to access different data sources. This middleware will serve as a gateway for the dashboard to access data from aggregated pdf reports and databases.

Report Scraper

A daily report scraper will be developed as a solution to scrap, extract and persist data for sourcing and modeling purposes.

Data Aggregator

The data aggregator component is a process job that will combine different data sets and push them into a unified data store that the dashboard system will use.

5ire

Prediction Component

Prediction Model Component

The prediction component will serve as the training set to house all the collected data models, and this model will be fed into a learning service which will then extract and classify data. The classified data will be loaded into an AI component (TensorFlow)

Infrastructure

Permissioned Network

Data Aggregator

Storage Data Service API / 2 IPFS node

5ire

Phase of Delivery

Based on the initial assessment, an estimate for completion of the dashboard could be from 2 to 3 months. Once the "prediction" requirements are available, we can extend it from 6 to 8 months, and it will all depend on the data available to create the prediction models to have a more precise time estimate.

DATALYTICS

Scope of Work - Alliance Police Department

July 15, 2021

Scope

The purpose of this project is to create data analytic products for the Alliance Police Department (APD). AH Datalytics will create three different products under this project: a gap analysis of APD data and data systems, and data products to support the strategic goals of the APD.

Gap Analysis

AH Datalytics will conduct a gap analysis to determine APD's data and analytic needs as it pertains to achieving the goals of the strategic plan, crime analysis, and community engagement. AH Datalytics has produced similar gap analyses for a wide range of organizations, including the Ferguson (MO) Police Department, Newark Police Department, Orleans Parish District Attorney's Office, the Puerto Rico Police Bureau, and more. The process for drafting the gap analysis will include:

- Engaging and gathering requirements from police leadership, field supervisors, officers, and other relevant stakeholders.
- Documenting critical uses of data for the strategic plan and the management needs of the Department.
- Understanding the existing uses of data and the current IT services to understand what will be needed to enable development of an analytic solution.

The gap analysis will evaluate:

- How data is collected and used in APD;
- What datasets or data points are needed to achieve the goals of the department, both as it pertains to fulfilling the strategic goals of the department as well as the interests of APD leadership;
- What datasets or reports are needed to address the gap and to what degree APD is already collecting that information;
- How data will be accessed to create reports; and,
- How reports will be accessed and utilized by officers throughout APD.

The gap analysis will consider best practices and market capabilities as well as detail how to build human capacity to deliver data-driven management within APD. Ultimately, this product will leave APD with a detailed roadmap for achieving the data collection and reporting requirements

of the strategic plan as well as enhance their analytical capabilities and community engagement needs.

Data collection & products

APD will work with AH Datalytics to identify critical topics in need of improved data products to support the strategic plan and findings of the gap analysis. AH Datalytics will work with APD to establish data collection mechanisms to fulfill collection needs identified in the gap analysis, particularly as it relates to use of force and hate crimes data.

AH Datalytics will build at least three public facing data products on behalf of, and directed by, APD. These data products will be created with off-the-shelf software and can be made available to the public if APD chooses. Each product will take about 6-12 weeks to complete upon data availability. These products will produce transparency with the community and allow community members to see trends firsthand. The three data products will cover crime trends, use of force trends, and hate crime trends. The gap analysis will help determine the degree to which data is readily available for each data product.

Timeline, Cost, and Deliverables

The project can begin immediately upon agreement to the scope of work. The project will cost $40,000 and should take 16 weeks to complete if data is readily available. The primary deliverables will be a gap analysis ($10,000), building data collection instruments as needed, and at least three data visualizations on topics to be determined upon discussion by APD and AH Datalytics ($30,000 total).

RESOLUTION – NEBRASKA CESF GRANT-FUNDED PURCHASES

Alliance Police Department effectivity has been impacted from the coronavirus in multiple aspects. This supplemental funding from the Nebraska Coronavirus Emergency Supplemental Funding (CESF) grant provides opportunity to purchase equipment to help with 21st century policing tactics while preparing for the future with the coronavirus and how it affects policing

There are many items that were suggested and discussed in the application request as presented at the council meeting on August 10, 2021. These items were included in the capital budget request which were contingent upon the awarding of a grant in order to purchase:

- Robot
- Incident Command Vehicle
- SWAT Vehicle
- Laptops
- Plastic Shields
- FLIR
- Evidence Handling Equipment
- Cameras
- Total Station
- Officer Training

After review of the grant application, the state crime commission awarded the grant in the amount of $563,520 for the items listed on the following page. The City of Alliance Police Department is able to utilize these funds to prevent, prepare for, and respond to the coronavirus without compromise to police tactics and community services. These purchases enhance our ability to police the community without additional staff. It should be noted we are aware of blacklisted cameras which could have counter intelligence software installed and all recommendations are equipment which has been US-verified safe.

RECOMMENDATION: APPROVE THE RESOLUTION AUTHORIZING THE CESF GRANT PURCHASES IN THE AMOUNT OF $564,440.72.
